Dear Sir,

Sub: Certification from CFE for entry into the Mexican Market

This is to inform that the Company has been certified by The Equipment and Materials Test Laboratory (LAPEM) which is a Federal Electricity Commission (CFE) organization that provides specialized engineering studies, laboratory and field tests on equipment and materials, as well as quality management systems and supplies. CFE is owned by the Mexican Government which generates, distributes and markets electric power, for supplying Power Transmission & Distribution structures to the Mexican Market. The certification was completed post visit of LAPEM representatives to our manufacturing units for a rigorous audit of the manufacturing and quality processes. With this certification Skipper now gets an entry into the highly potential Mexican Power Transmission market.

Kindly take the same on record.

Thanking you,
Yours faithfully,

For Skipper Limited
